I support the outlined aims of storm water management and resilient design.

SOCIALPOINT BY OPEN POINT

Submission point 15.01

I'd like the council to consider setting aside a majority of the houses as social houses. I am young and have many young friends who would love to move back home and grow a young family in Waipukurau. This is not possible at current prices, but this development presents an opportunity for first home buyers to come in at a reasonable price. Perhaps these social houses could be spread through the whole devision rather than lumped into a corner so as to avoid the stigma of a 'bad part of town'. We need to support our vulnerable and less fortunate!
I'd also like to see bike paths considered for this development. It'd be great to be able to get around town with out a car. The children would appreciate this a lot, I'd know as I grew up on my bike in Waipukurau!

Thanks for reading

I'd like to see solar made easier to install. I'd also like these provisions to extend to home batteries and local level battery systems. Nothing can offer our isolated communities more energy security in times of climate emergency than local, small scale energy grids that keep the lights and freezers on when the wider grip gets knocked out. There will soon be a time when a normal bad wind will be strong enough to take down power lines. With a battery in every house, that would give line companies days to repair their networks and reduce peak strain on our energy grid!
