3. Could you gain an advantage in trade competition through this submission (Please tick relevant box) I could not

Q9 Select Box

4. Are you directly affected by an effect of the subject matter of the submission that:

I am not

Q10 Select Box

5. Do you wish to be heard in support of my submission in person (Please tick relevant box)

I do not wish

Q11 Select Box

6. Will you consider presenting a joint case with other submitters, who make a similar submission, at a hearing. (Please tick relevant box)

I will

Q12 Select Box

7. Do you wish to present your submission via Zoom?

No

Q13 Select Box

Do you:

Amend

Q14 Long Text

What specific parts of the proposed changes does my submission relate to? (please reference the specific section or words and attach more pages if required)

This submission relates to the proposed DEV1 – Waipukurau South Development Area Chapter, including:
- DEV1-O2 (Subdivision outcomes)
- DEV1-P4 (Transportation upgrades)
- DEV1-P5 (Open space and neighbourhood character)
- The Structure Plan (DEV1-APP1)

SOCIALPOINT BY OPEN POINT

Q15 **What decision are you seeking from Council? (clearly indicate whether you support of oppose the specific provisions or wish to have amendments made, giving reasons).**

Long Text

I support the overall intent of the Waipukurau South Development Area (DEV1) provisions and the opportunity they present to enable integrated and well planned residential growth.
However, I seek that the proposed provisions be amended to more explicitly recognise and support health and wellbeing outcomes through the design of the development to meet the health and wellbeing needs of its future community.

In particular, I seek the following amendments:

Submission point 03.01

1. Transport connectivity (DEV1-O2(a), DEV1-P4):
Amend provisions to more clearly prioritise safe, accessible, and connected walking and cycling infrastructure to support active transport and enable residents to incorporate physical activity into daily life.
The design of transport networks plays a key role in shaping daily movement. Neighbourhoods that support active transport can significantly increase physical activity and reduce the long-term risk of chronic conditions, including cancer.

Submission point 03.02

2. Open space and reserves (DEV1-O2(b)(c), DEV1-P5):
Amend provisions to ensure that open space areas are designed to support regular use and recreation, including the incorporation of shade to reduce harmful UV exposure, particularly in areas frequently used by children and whānau such as parks and playgrounds. In Aotearoa, UV radiation levels are high, and incorporating shade into public spaces is a key, practical measure to support skin cancer prevention.

Submission point 03.03

3. Urban design and neighbourhood layout (Structure Plan and Urban Design Response):
Strengthen recognition within the provisions that neighbourhood design influences physical activity, social connection, and safety, and should support walkability, accessibility, and overall community wellbeing. The design of new residential areas has a direct influence on long-term health outcomes, including physical activity levels, social connection, and environmental exposures. Well designed neighbourhoods can support social cohesion and a sense of safety, both of which are important determinants of health.

These amendments are consistent with creating well functioning urban environments that support the health and wellbeing of current and future residents.

Q16 **Please note: All submissions will be treated as public documents and will be made available on Council's website. However, you may request that your contact details (but not your name) be withheld. If you want your contact details withheld, please let us know by ticking this box**

Single Checkbox

Yes

Support

Q19 **What specific parts of the proposed changes does my submission relate to? (please reference the specific section or words and attach more pages if required)**

Long Text

This submission relates to the Renewable Energy Chapter as a whole.

Q20 **What decision are you seeking from Council? (clearly indicate whether you support of oppose the specific provisions or wish to have amendments made, giving reasons).**

Long Text

I support the proposed Renewable Energy provisions.

Submission point 03.04

Renewable energy plays an important role in reducing greenhouse gas emissions and supporting a healthier environment. There are clear benefits for public health, including improved air quality and reduced long term health risks associated with climate change.

Enabling renewable energy aligns with creating healthy and resilient communities, and supports long-term wellbeing outcomes.

Q21 **Please note: All submissions will be treated as public documents and will be made available on Council's website. However, you may request that your contact details (but not your name) be withheld. If you want your contact details withheld, please let us know by ticking this box**
